PERFORMANCE.

THE SPACE-SAVING, ENERGY-EFFICIENT MINI COMPACT AIR COOLER.

Its compact size combined with a simple yet effective design makes the Mini COMPACT Air Cooler ideal for small-scale applications, e.g., grocery shops, restaurants, or canteens, that require a practical and affordable cooling solution.

MAXI STORAGE SPACE

Measuring only 124 mm in height and with a flush-mounted design, the Mini COMPACT Air Cooler maximises the available storage space.

QUALITY CASING

The air cooler has an aluminium casing with an anti-corrosion powder coating as standard.

3-YEAR WARRANTY

The Mini COMPACT Air Cooler comes with a three-year manufacturer's warranty as standard.

ENERGY SAVING

The energy-efficient design of the Mini COMPACT Air Cooler, including optimised defrost heating, cuts costs by up to 30% when used for cooling and 50% for defrosting compared to conventional air coolers.

EASY CLEANING & INSPECTION

The air cooler can be accessed conveniently from below via the fold-away tray. At the same time the smooth surfaces and plug-connected fans allow for easy cleaning and maintenance with minimal downtime.
